The Influence of Operating Capacity, Leverage, and Liquidity on Financial Distress (Case Studies on Food and Beverage Companies Listed on the Indonesia Stock Exchange for 2017-2021)

Skripsi. Accounting Study Program. 2023

Keywords : *Operating Capacity, Leverage, Liquidity And Financial Distress*

This study aims to examine and study the effect of operating capacity, leverage and liquidity on financial distress in Food and Beverage Companies. This research focuses on Operating Capacity on Total Asset Turn Over (TATO), Leverage focuses on Debt to Asset Ratio (DAR) and Liquidity with Current Ratio (CR). The population in this study were 89 Manufacturing Companies in the Food and Beverage Sub Sector which were listed on the Indonesia Stock Exchange during 2017-2021 and in this study used a purposive testing technique to obtain 25 Manufacturing Companies in the Food and Beverage Sub Sector with predetermined criteria.

The research results show that Operational Capacity has a negative effect on Financial Distress, Leverage has a positive effect on Financial Distress, Liquidity has a negative effect on Financial Distress. Operational Capacity, Leverage, and Liquidity as a whole affect Financial Distress.
